How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Sub-Fund and the timeframe in which it is expected that it will be possible to achieve the investment objective of the Sub-Fund. The investor has the right to totally or partially redeem the contract on any valuation day, collecting the redemption value calculated based on the value of the shares of the Sub-Fund on the date the request is received by the Manager, without any redemption fee being applied. We recommend that you hold the investment at least until the end of the recommended holding period in order to fulfil the objectives of this product. This product may not be suitable for investors who plan to redeem their contract before the end of the recommended holding period. The product does not provide any guarantee of return on the expiration of the recommended time horizon, and any redemption before that date may compromise the investment performance. Please refer to the Prospectus for further details.
